LIMPOPO WILD LIFE SAFARI.

We embark on a journey of a lifetime turning your dream into a reality by sharing our passion for Africa with you. On this safari we will do all our exploring in the Limpopo province. Not even Tanzania's famed Serengeti Game Reserve or the awesome Ngorongoro Crater fills your camera viewfinder faster with Africa's legendary Big Five – lion, leopard, buffalo, rhinoceros and elephant appear magically,” says acclaimed wildlife photojournalist Geoff Dalglish in his Sunday Times review. "Nor could Hollywood script the wide-screen wildlife encounters any more dramatically or frequently than nature does routinely in the private game reserve that is arguably South Africa's most famous internationally."

Limpopo is South Africa's northernmost province, lying within the great curve of the Limpopo River. It is a region of contrasts, from true bushveld country to majestic mountains, primeval indigenous forests, unspoilt wilderness and patchworks of farmland. For a true African safari adventure, where one can truly appreciate the African bushveld and all its wonders, there is absolutely no better than doing a safari.

The province borders the countries of Botswana to the west, Zimbabwe to the north and Mozambique to the east. In the eastern region lies the northern half of the magnificent Kruger National Park, a nature reserve teeming with African wildlife in a total area roughly the size of Israel.

Limpopo is in the savannah biome, an area of mixed grassland and trees generally known as bushveld. A summer-rainfall region, the northern and eastern areas are subtropical with hot and humid summers and mist in the mountains. Winter is mild and mostly frost-free.

Grading: Anyone in good health with a sense of adventure should be able to take part. There’s no real physical difficulty involved, but as in much of Africa – rough roads in the national parks, limited facilities and basic accommodation may require you to adjust your levels of expectation. 

NB: Although it is our intention to operate this itinerary as printed and detailed below, it may be necessary to make some changes as a result of alterations to flight schedules, climatic conditions, limitations of infrastructure such as accommodation, or other operational factors. As a consequence, the order or location of overnight stops may vary from those outlined. Included meals are indicated in the daily itinerary i.e. (BLD- Breakfast, Lunch, and Dinner).

Day 1: JOHANNESBURG; 31/05/14-01/06/14.
You take a taxi at O R Tambo airport and are driven to our guest house in the northern suburbs of Johannesburg, set in a secure golf estate, and check in. (taxi for your own cost). Our office will book it on your behalf. Please let us have your time and date of arrival. Johannesburg is an extraordinary city, born just over 125 years ago, when one of the world’s richest gold-bearing reefs was discovered under the sweeping savannah plains.

The area of Johannesburg began on a vast undulating grassy plain, interspersed with ridges and kopjes (small hills) in an area known as the Witwatersrand, named after the white water springs that drained the land. It wasn’t until George Harrison, an Australian prospector, arrived here
that the mineral wealth of the Witwatersrand became apparent. In 1886, after George sold his gold claim for just £10, Johannesburg was born. He may never have envisaged the significant world history that would unfold here in the province of Gauteng, place of gold.

Guest house 1 night.

Day 2-3: MARAKELE NAT.PARK; 02 & 03/06/14.
Today we start our safari after a scrumptious breakfast and travel from Johannesburg to our first park. On arrival we settle into our rooms. In the afternoon we do our first game drive. Marakele national park is an excellent place to look for raptors, with many species using the uplift generated off the cliff faces of the Waterberg to ride thermals. Apart from the vultures, we will be looking out for African Harrier Hawk (Gymnogene), Jackal Buzzard and several eagle species, including Verreaux’s (Black), African Hawk, Black-chested (breasted) Snake and Brown Snake Eagle.

The landscapes include umbrella thorn savannah, mopane patches and dense bushveld towards the mountains. The spectacular Tshihovhohovho Falls and the massive Nwanedi Dam are the scenic highlights of the reserve. Antelopes, giraffe, white rhino and the occasional leopard can be seen. It is managed by the local Mnisi tribe. Manyeleti Game Reserve is situated away from the mainstream tourist areas where we can experience the tranquility of the African Bush in absolute seclusion.

Our camp is situated in the heart of the Manyeleti Reserve which is unfenced from Kruger National Park, and is the perfect destination for us wanting to spend time in a game-rich reserve that is renowned for its animal sightings.

Visitors to Buffelshoek Safari Camp have the options of guided game drives or guided walks in the mornings and evenings.(optional, not included) The Manyeleti’s ‘no self-drive’ policy ensures excellent and private game viewing experiences for the guests in the area, and none of the traffic jams that are an unfortunate reality of Kruger’s guest experience.

Parents and school staff have recently fired 60,000 bricks and began building this year. You may like to bring some books or school equipment to assist this very deserving project and see for yourself how well received it is. Any donations in cash are always welcome.

ADDITIONAL INFORMATION

Climate: South Africa’s wet season runs from mid-October or early November to March or April. During the rainy season, daytime temperatures are pleasantly warm, but low lying areas can sometimes be humid. The heaviest rain is confined to the highlands, while while the lakeshore is much drier.

The dry season tends to be cooler and generally runs from May to early October. During the dry season, daytime temperatures in the lower areas are fairly consistent at 21°C to 26°C. In the highlands daytime temperatures can be considerably cooler ranging between 10°C and 20°C.

Nights can be particularly cold during the dry season, so warm clothing is essential. May to Aug; the hot and dry from Sep to Oct, and the wet season from Nov to Apr.

Baggage:
• One piece of main luggage only (max 12kg), this should be a soft bag rather than a hard suitcase, so it can be easily stowed and not take up too much room in the vehicle or in the tent. Space in the vehicle is restricted.
• A day sack (large enough to carry your camera, water bottle, & binoculars etc) is also essential.
• Sleeping Bag

Clothing and Footwear:
• For comfort in the heat, lightweight cotton is best. Brightly colored clothing is not appropriate for safari because it is easily seen by animals and has the added discomfort of attracting insects (wear muted tones in natural colors i.e. beige, khaki, olive, etc, but not army-style camouflage clothing).
• A long-sleeved shirt is essential to protect neck and arms while on game walks/drives.
• Long trousers and socks for evenings.
• Windproof/waterproof jacket.
• Lightweight trail boots.
• Trainers or sandals for relaxing.
• Sunhat.
• Swimming gear.
• Warm mid layers i.e. fleece or jumper for cool nights and early mornings
• Kagoul if you are travelling during the rains.

• A laundry service may be available in some hotels, but we recommend you take biodegradable travel detergent
• Torch (Head torch is ideal)
• Water bottle
• Sunglasses, sunscreen and lipsalve
• Insect repellent

please allow USD 25 per person for this tour.
Seasonal changes: Although all rooms/chalets in malaria areas that we use are protected with mosquito netting; there will be insects and mosquitoes about. The camps are essentially "al fresco" so you should be prepared with insect repellent and appropriate long sleeved/legged clothing.

Insects are attracted to lights at night and are especially prevalent during the rainy season. Switching the lights off and placing a hurricane lamp a distance from you will remove the problem.
The evenings and mornings will be chilly from about June to August; so it is advisable to take a light sweater or fleece.
